LONDON, January 25.—In the opinion of a considerable number of American canonists, the accession of King Edward VII has a bearing upon the status of the Protestant Episcopal Church in the United States. The English canon law is held by them to have obtained force in the American colonies, and having never been

American colonies, and having never been repealed, it is held to be in effect to this day. The position is denied, but the subject is one sufficiently large to make the death of one head of the Church of England and the coming in of another official head of interest in America.

The legal status of the King of England in relation to the Church of England is in no sense spiritual, and it rever has been. The Church of England is, according to its own claim, "that pure and reformed part of Christ's Holy Catholic Church which is established within this Realm." The word "established" is held to imply that certain relation which exists between it and the realm itself: actions between it and the realm itself; and the Church of England is established in its recognition as the national organization for the maintenance of Christian belief and practice. According to the official declaration, the King is one of the members of the Church and its suprementation with the course two courses.

CANNOT CHANGE HIS RELIGION.

In practice the office of governor has ever been held to refer to civil matters only, and the King, in all matters spir-itual, is no more than any other memhttad, is no more than any other mem-ber of the same religious body. The King cannot become a member of any other religious body, and is therefore not free as are other people to change his re-ligious affiliation. The Church of Eng-land existed, as matter of history, before the kingdom did, even before that part your known has England was under one

its precedence. From her event into public life, Queen From her event into public life, Queen Victoria always had marked preference for different ecclesiastics. The line of her favorite spiritual advisers and favorite preachers is a long one. amending the bill of amendments of the

FRAZIER NOT DEAD YET.

It was learned here last night that the report that Jim Frazier (colored) had been shot and killed by Lee Way, at Chester, on Friday night, was incorrect, and that Frazier was alive yesterday atternoon, when he was taken to Petersburg for treatment. Frazier was shot through the body and was thought to have been killed, but later railied. His condition is considered very critical and there is little chance of his recovery. ## CAUGHT BY THE GRIP. ARE SATISFIED RELEASED BY PERUNA.

The Masses and the Classes, are Alike Subjects to La Grippe.

None are Exempt-All are Liable.

Have you the grip? Or, rather, has the grip got you? Grip is well named. The original French term, la grippe, has been shortened by the busy American to read Without intending to do so, new word has been coined that exactly describes the case. Miss Emma Jouris, president of Golden Rod Sewing Circle, writes from No. 46 Burling Street, Chicago, Ill., as follows: "This spring I suffered severely from the after-effects of la grippe. As the doctors did not seem to help me I bought bottle of Peruna. I had certainly no idea that any medicine could help any one as that did. Day by day I felt better, and in a little over two weeks I was as strong and well as ever. We keep it in the home constantly, and if any of the family feels badly a few doses strengthens them."—Miss Emma Jouris.
